

【ODS ラット参考文献リスト】

(※発行年度順。動物カタログのReferencesとは異なります。)

1980

牧野進・片桐謙、骨形成異常ラット 1980, 実験動物。1980,29,374-375. [PMID: None]

1985

Horio F, Ozaki K, Yoshida A, Makino S, Hayashi Y. Requirement for ascorbic acid in a rat mutant unable to synthesize ascorbic acid. *J Nutr.* 1985 Dec;115(12):1630-40. [PMID: 4067654]

1989

Tsuji M, Ito Y, Terada N, Mori H. Ovarian aromatase activity in scorbutic mutant rats unable to synthesize ascorbic acid. *Acta Endocrinol (Copenh).* 1989 Oct;121(4):595-602. [PMID: 2800929]

1990

Kosaka H, Tsuda M, Kurashima Y, Esumi H, Terada N, Ito Y, Uozumi M. Marked nitrosation by stimulation with lipopolysaccharide in ascorbic acid-deficient rats. *Carcinogenesis.* 1990 Oct;11(10):1887-9. [PMID: 2208602]

T Konishi. What is the ODS rat?: Historical description of the characterization studies. *Vitamin C and the Scurvy-Prone ODS Rat.* 1990,3-2 [PMID: None]

1991

Mori S, Murai T, Takeuchi Y, Hosono M, Ohhara T, Makino S, Hayashi Y, Shibata MA, Kurata Y, Hagiwara A, Fukushima S. No promotion of urinary bladder carcinogenesis by sodium L-ascorbate in male ODS/Shi-od/od rats lacking L-ascorbic acid-synthesizing ability. *Carcinogenesis.* 1991 Oct;12(10):1869-73. [PMID: 1934267]

1992

Kimura H, Yamada Y, Morita Y, Ikeda H, Matsuo T. Dietary ascorbic acid depresses plasma and low density lipoprotein lipid peroxidation in genetically scorbutic rats. *J Nutr.* 1992 Sep;122(9):1904-9. [PMID: 1512641]

Ito Y, Tsuji M, Terada N, Miyano M, Mori H. Testosterone production in mature scorbutic mutant rats unable to synthesize ascorbic acid. *Int J Androl.* 1992 Apr;15(2):160-9.

[PMID: 1572729]

Ito Y, Tsuji M, Miyano M, Wakabayashi K, Mori H. A delayed response to acute stimulation with human chorionic gonadotropin in scorbutic rats. *Exp Clin Endocrinol.* 1992;99(1):49-53. [PMID: 1628698]

Kawai T, Nishikimi M, Ozawa T, Yagi K. A missense mutation of L-gulonon-gamma-lactone oxidase causes the inability of scurvy-prone osteogenic disorder rats to synthesize L-ascorbic acid. *J Biol Chem.* 1992 Oct 25;267(30):21973-6. [PMID: 1400508]

1993

Kawaguchi M, Hayakawa F, Kamiya Y, Fujii T, Ito J, Sakuma N, Fujinami T. Effect of ascorbic acid on pituitary prolactin secretion in the non-ascorbate synthesizing Osteogenic Disorder Shionogi (ODS) rat. *Life Sci.* 1993;52(11):975-9. [PMID: 8445988]

Mori T, Kitamura R, Imaoka S, Funae Y, Matsubara T, Kamataki T. Increased CYP1A2 content and capacity to activate Glu-P-1 and Trp-P-2 in liver microsomes of scorbutic ODS rats. *Carcinogenesis.* 1993 Dec;14(12):2471-5. [PMID: 8269614]

Suzuki H, Torii Y, Hitomi K, Tsukagoshi N. Ascorbate-dependent elevation of mRNA levels for cytochrome P450s induced by polychlorinated biphenyls. *Biochem Pharmacol.* 1993 Jul 6;46(1):186-9. [PMID: 8347131]

1994

Onodera K, Kasai S, Kato K, Sawa M, Mito M, Nozawa M. Effects of intrasplenic hepatocyte transplantation in rats congenitally deficient in ascorbic acid biosynthetic enzyme. *Cell Transplant.* 1994;3 Suppl 1:S31-4. [PMID: 8162304]

1995

Yamaguchi T, Horio F, Hashizume T, Tanaka M, Ikeda S, Kakinuma A, Nakajima H. Bilirubin is oxidized in rats treated with endotoxin and acts as a physiological antioxidant synergistically with ascorbic acid in vivo. *Biochem Biophys Res Commun.* 1995 Sep 5; 214(1):11-9. [PMID: 7669030]

Onodera K, Kasai S, Kato K, Nakazawa F, Mito M. Long-term effect of intrasplenic hepatocyte transplantation in congenitally ascorbic acid biosynthetic enzyme-deficient rats.

- Cell Transplant. 1995;4 Suppl 1:S41-3. [PMID: 7795904]
- Togari A, Arai M, Nakagawa S, Banno A, Aoki M, Matsumoto S. Alteration of bone status with ascorbic acid deficiency in ODS (osteogenic disorder Shionogi) rats. *Jpn J Pharmacol.* 1995 Jul;68(3):255-61. [PMID: 7474548]
