(※発行年度順。動物カタログのReferencesとは異なります。)

1984

Sekiya T, Fushimi M, Hori H, Hirohashi S, Nishimura S, Sugimura T. Molecular cloning and the total nucleotide sequence of the human c-Ha-ras-1 gene activated in a melanoma from a Japanese patient. *Proc Natl Acad Sci USA*. 1984; 81(15):4771-5. [PMID: 6087347]

1985

Sekiya T, Prassolov VS, Fushimi M, Nishimura S. Transforming activity of the c-Ha-ras oncogene having two point mutations in codons 12 and 61. *Jpn J Cancer Res*. 1985; 76(9): 851-5. [PMID: 3932284]

1990

Saitoh A, Kimura M, Takahashi R, Yokoyama M, Nomura T, Izawa M, Sekiya T, Nishimura S, Katsuki M. Most tumors in transgenic mice with human c-Ha-ras gene contained somatically activated transgenes. *Oncogene*. 1990; 5(8): 1195-200. [PMID: 2202951]

1992

Ando K, Saitoh A, Hino O, Takahashi R, Kimura M, Katsuki M. Chemically induced forestomach papillomas in transgenic mice carry mutant human c-Ha-ras transgenes. *Cancer Res*. 1992; 52(4): 978-82. [PMID: 1737360]

Izawa M, Takayama S, Shindo-Okada N, Doi S, Kimura M, Katsuki M, Nishimura S. Inhibition of chemical carcinogenesis in vivo by azatyrosine. *Cancer Res*. 1992; 52(6): 1628-30. [PMID: 1540971]

1994

Doi ST, Kimura M, Katsuki M. Site-specific mutation of the human c-Ha-ras transgene induced by dimethylbenzanthracene causes tissue-specific tumors in mice. *Jpn J Cancer Res*. 1994; 85(8): 801-7. [PMID: 7928625]

Tsunematsu S, Saito H, Kagawa T, Morizane T, Hata J, Nakamura T, Ishii H, Tsuchiya M, Nomura T, Katsuki M. Hepatic tumors induced by carbon tetrachloride in transgenic mice carrying a human c-H-ras proto-oncogene without mutations. *Int J Cancer*. 1994; 59(4): 554-9. [PMID: 7960226]

1996

Inoue R, Ushijima T, Katami M, Kushida H, Wakabayashi K, Sato H, Asamoto M, Katsuki M, Sugimura T, Nagao M. Rare activation of the human c-Ha-ras transgene of mice in hemangioendothelial sarcomas and liver tumors induced by Glu-P-1. *Jpn J Cancer Res*. 1996; 87(6): 583-8. [PMID: 8766521]

Ogawa K, Imaida K, Masui T, Kawabe M, Hasegawa R, Kato K, Ito N, Shirai T. Chemically induced lung and forestomach neoplasias in transgenic mice carry mutant forms of the human c-Ha-ras transgene. *Carcinogenesis*. 1996; 17(2): 341-5. [PMID: 8625461]

Yamamoto S, Mitsumori K, Kodama Y, Matsunuma N, Manabe S, Okamiya H, Suzuki H, Fukuda T, Sakamaki Y, Sunaga M, Nomura G, Hioki K, Wakana S, Nomura T, Hayashi Y. Rapid induction of more malignant tumors by various genotoxic carcinogens in transgenic mice harboring a human prototype c-Ha-ras gene than in control non-transgenic mice. *Carcinogenesis*. 1996; 17(11): 2455-61. [PMID: 8968063]

1997

Mitsumori K, Wakana S, Yamamoto S, Kodama Y, Yasuhara K, Nomura T, Hayashi Y, Maronpot RR. Susceptibility of transgenic mice carrying human prototype c-Ha-ras gene in a short-term carcinogenicity study of vinyl carbamate and ras gene analyses of the induced tumors. *Mol Carcinog*. 1997; 20(3): 298-307. [PMID: 9397190]

Tsunematsu S, Saito H, Sato R, Morizane T, Ishii H. Role of H-ras gene in chronic liver damage in mice. By using transgenic mice carrying a human C-H-ras proto-oncogene without mutations. *Biochem Mol Biol Int*. 1997; 42(2): 371-9. [PMID: 9238536]

Tsunematsu S, Saito H, Tada S, Ebinuma H, Tsuchiya M, Kumagai N, Morizane T, Nomura T, Ishii H. Susceptibility of experimental autoimmune hepatitis in transgenic mice overexpressing the c-H-ras gene. *J Gastroenterol Hepatol*. 1997; 12(4): 319-24. [PMID: 9195373]

Yamamoto S, Hayashi Y, Mitsumori K, Nomura T. Rapid carcinogenicity testing system with transgenic mice harboring human prototype c-HRAS gene. *Lab Anim Sci*. 1997; 47(2): 121-6. [PMID: 9150488]

1998

- Hayashi S, Mori I, Nonoyama T, Mitsumori K. Point mutations of the c-H-ras gene in spontaneous liver tumors of transgenic mice carrying the human c-H-ras gene. *Toxicol Pathol.* 1998; 26(4): 556-61. [PMID: 9715515]
- Mitsumori K, Yasuhara K, Mori I, Hayashi S, Shimo T, Onodera H, Nomura T, Hayashi Y. Pulmonary fibrosis caused by N-methyl-N-nitrosourethane inhibits lung tumorigenesis by urethane in transgenic mice carrying the human prototype c-Ha-ras gene. *Cancer Lett.* 1998; 129(2): 181-90. [PMID: 9719460]
- Mitsumori K, Koizumi H, Nomura T, Yamamoto S. Pathological features of spontaneous and induced tumors in transgenic mice carrying a human prototype c-Ha-ras gene used for six-month carcinogenicity studies. *Toxicol Pathol.* 1998; 26(4): 520-31. [PMID: 9715511]
