

Soft, Squishy,
and Ready for Training!

Mochi Mouse

Your First Confident Touch with a Mouse 

※only usable for empty shot

Why Mochi Mouse Will Transform Your Training

Perfect Your Restraint:

Get a feel for the mouse's size and practice correct restraint methods, building confidence for real-life situations.

Prevent Bite Accidents:

By learning proper handling before working with live animals, you can significantly reduce the risk of bites.

Enhance Animal Welfare:

Smooth and confident handling minimizes stress for the animals, contributing to better animal welfare practices.
